Arconic operates a world-class collection of assets that it managed properly, with prudent reinvestment of capital, should produce substantial returns for its shareholder owners. Unfortunately, despite these valuable assets, considerable shareholder value has been destroyed over the past decade under the watch of current management.

[We believe a change of leadership is required to improve performance at Arconic today.](#)

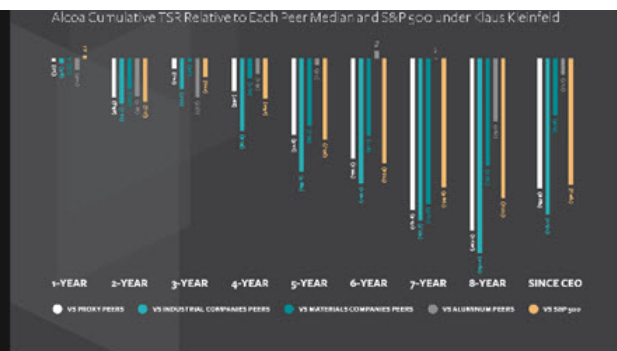

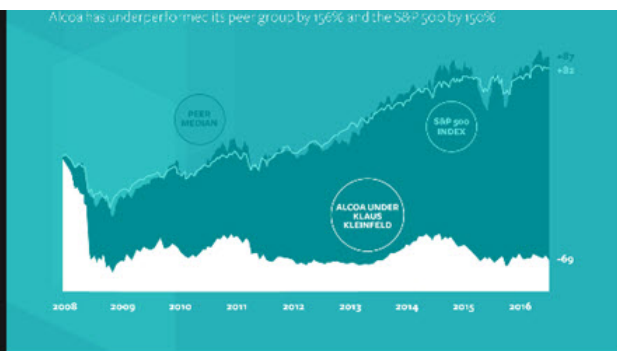

Take a look at the brief history of inappropriate vote buying, subterfuge, and stonewalling. This troubling episode reveals yet another management mistake that squandered value for a company with great potential.
