**Item 5.02. Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.**

On January 3, 2018, Arconic Inc. (the “Company”) amended the Arconic Employees’ Excess Benefits Plan C, as amended, a non-qualified defined benefit plan, in order to freeze benefit accruals for future service and compensation under the plan for all eligible employees, including Kenneth J. Giacobbe, Executive Vice President and Chief Financial Officer, effective as of April 1, 2018. In connection with this change, Mr. Giacobbe will commence receiving an employer contribution of 3% of eligible compensation under the Arconic Salaried Retirement Savings Plan (including the excess component provided under the Arconic Deferred Compensation Plan), and, for the period from April 1, 2018 through December 31, 2018, an additional transition employer contribution of 3% of eligible compensation.

The foregoing description of the plan amendments does not purport to be complete and is qualified in its entirety by reference to the full text of the amendments filed herewith as Exhibit 10.1.

**Item 7.01. Regulation FD Disclosure.**

On January 8, 2018, the Company announced that benefit accruals for future service and compensation under all of the Company’s qualified and non-qualified defined benefit pension plans for U.S. salaried and non-bargained hourly employees (the “Pension Plans”) will cease effective as of April 1, 2018. Service earned after March 31, 2018 will continue to count towards eligibility for early retirement provisions on accrued benefits earned under the Pension Plans as of March 31, 2018.

In connection with this change to the Pension Plans, affected participants will receive an employer contribution of 3% of eligible compensation, and an employer matching contribution of up to 6% of eligible compensation, under the Company defined contribution plans in which they participate, which is consistent with the current employer contributions under such plans for most newly hired salaried participants. Furthermore, an additional transition employer contribution of 3% of eligible compensation will be made to the Company’s defined contribution plans for affected employees for the period from April 1, 2018 through December 31, 2018.

This change to the Pension Plans will apply to approximately 7,900 U.S. salaried and non-bargained hourly employees. Benefits already earned by affected employees through March 31, 2018 will be available to such employees when they reach retirement eligibility. Retirees already collecting benefits, and former employees with vested benefits, under the Pension Plans will not be impacted by this change to the Pension Plans.

As a result of this change to the Pension Plans, in the first quarter of 2018, the Company expects to record a liability decrease of approximately \$140 million related to the reduction of future benefits and a curtailment charge of approximately \$5 million pre-tax. For the full year 2018, the Company expects pension-related expense to be lower by approximately \$50 million pre-tax compared to 2017 full year expenses. The lower pension expense expectation is based on preliminary year-end December 31, 2017 results and is inclusive of the change to the Pension Plans described above as well as expected changes in other pension-related assumptions.

Amounts related to this action are still being finalized. Additional details will be provided in the Company’s Form 10-K for the year ended December 31, 2017.
